Synergies Business Verticals

Making a difference

Our Principles:

Synergies Tech is supplier for the below well-known brand in the chemical industry.

Goodway Chemicals

Goodway Chemicals is a reliable manufacturer of lubricant additive components and packages. The company is export oriented and offers their performance driven solutions to all major international lubricant manufacturers. Company is also capable to customize the product as per the needs of the customer.

ABSfil

ABSfil is an emerging force in the field of "filtration & separation" systems. The company's core business is engineering and manufacturing of filtration and separation systems. We are capable to supply you with premium quality filter cartridges and filtration housings that can cover vast list of applications.

Neogen Chemicals Ltd.

Neogen Chemicals Ltd. is premium quality manufacturer of specialty bromine, lithium and cycloalkane compounds that finds applications in vast industry verticals. Currently installed capacity of plant is 2400+ MTPA. Lithium Bromide (LiBr) is a flagship product of Neogen. It is key product widely used in absorption chillers industry across the globe as "absorbent". Also product is technically approved by all major absorption chiller manufacturers such as Thermax, Ebara, KTE, TRANE etc.

CHEMVIRON CARBON

It is the European Operation of Calgon Carbon Corporation, USA which is a global manufacturer, supplier & developer of innovative activated carbon treatment systems; value added technologies & services for optimizing production processes & safely purifying the environment. Over 150 different types of activated carbon are available for applications including drinking water, waste-water, sweetener, pharmaceutical, air and gas purification (natural gas and biogas).

DEVSON GROUP

Devson Group is mainly engaged into manufacturing of active and inert bed support from last two decades. All leading international petrochemical, oil refining and gas plant companies are esteemed customer of Devson in the territory of Middle East. Company is ISO 9001:2008 certified. All major international catalyst and adsorbent manufacturers and engineering companies such as AXENS, basf, UOP, Toyo, EIL, Uhde etc. regularly purchase bed support materials for their customers from Devson.

Product Portfolio

Adsorbent Technology

Catalysts

Gas Treatment Solutions

Oil Field Chemicals

Lubricating Oil Additives

Thiochemicals

Bed Support

Tower Packing Materials

Process Chemicals

Targeted Market

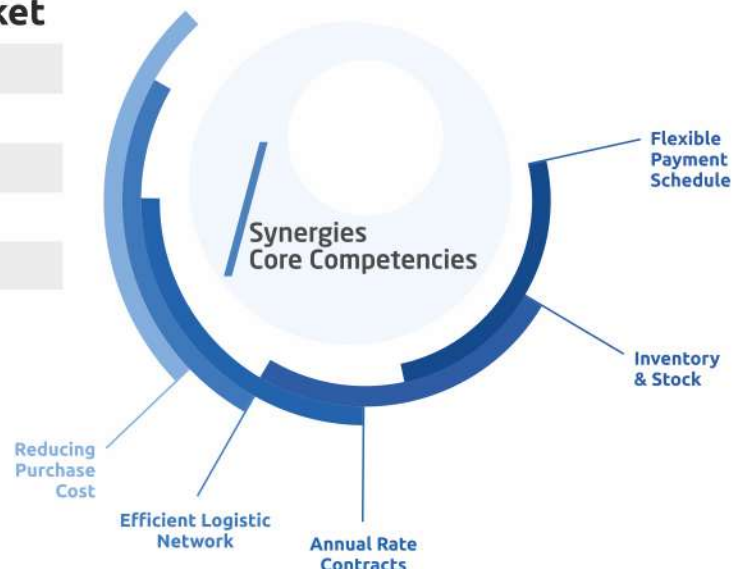

Lubricating Oil

NG Processing

Oil & NG Production

Oil Refining

Petrochemical

Field of Application

Synergies Tech follows a systematic problem solving approach. We are fully capable of supporting our customers for Spares, Projects and MRO. With the support and experience of our partners we solve complex industrial problems:

Our range of product sourcing is not limited to the authorized distributorship alone. We strive to fulfill the all customer needs through our global sourcing network. Our key objective is to bring down the TCP (Total Cost of Purchase) for our customers and help customers to achieve substantial saving for their organization.

Nature	Industry	Application Sector	Synergies Chem Solutions
Upstream	Oil/Natural Gas	Drilling fluids / cementing / Stimulation / production	Oil field chemicals <ul style="list-style-type: none"> • Drilling Mud • Biocides • Corrosion inhibitors • Defoamers • Emulsifiers • Flocculants • Fluid loss additives • Wetting agents • Retarders • Dispersants • Iron control agents • Scale inhibitors • PPDs • Cleaning agents • Demulsifiers • H2S Scavengers • Glycols • Amines • Activated Carbon • Molecular sieves • Activated alumina • Ceramic bed support • Inert bed support • Mercury Guard Catalyst (base metal / activated carbon) • Activated alumina • Activated alumina
Upstream	Natural Gas	Dehydration	
Upstream	natural gas	Acid gas removal	
Downstream	NG processing	Dehydration	
Downstream	NG Processing	Dehydration	
Downstream	Oil refining	Chloride removal	
Downstream	Oil refining	fluoride removal (HF Alky unit)	
Downstream	Oil Refining	Sulfur recovery unit	<ul style="list-style-type: none"> • Claus catalyst • Tail gas catalyst • Active bed support
Downstream	Oil refining	Fuel additives	<ul style="list-style-type: none"> • Fuel additives
Downstream	Oil refining	Catalyst Sulfiding	<ul style="list-style-type: none"> • DMDS
Downstream	Petrochemical	CG Dehydration	<ul style="list-style-type: none"> • Activated alumina • Molecular sieves
Downstream	Petrochemical	Olefin purification	<ul style="list-style-type: none"> • Selective adsorbents • Molecular sieves • metal oxide catalysts • Ceramic balls • Inert bed support
Downstream	Petrochemical	Bed support/ Ballast	<ul style="list-style-type: none"> • DMDS • PPD
Downstream	petrochemical	Furnace anti-coking	<ul style="list-style-type: none"> • Antiwear additives • EP additives (sulfurized) • VII
Downstream	Lubricating Oil	Lubricating oil additives	<ul style="list-style-type: none"> • Dispersants • Detergents • Additive package
